VISUAL DESIGN TRENDS

Every creative wants to make something original that stands out, but knowing which visual themes and tools are trending, and then putting your own spin on them, is a great way to keep your work fresh (even when you haven't left the office in a week and aren't so fresh yourself). Here are some of the top visual trends to look out for in 2014. Also, look out for the witches.

1 DIVERSE WOMEN

Bring on real women of all shapes, races and ages that don't fit a cookie-cutter mold.

2 HANDS-ON DADS

Take away the briefcase and we see a real-life dad who gets dirty with his kids.

3 BEARDS

That old itchy stubble will grow into beards full of wisdom & masculinity (& crumbs).

4 LENS FLARE

Lens flare is no longer seen as a technical mistake but a way to achieve authenticity.

5 MAN AS MACHINE

For better or worse, technology has turned us into data-driven human robots.

6 CAMERAS WE WEAR

Technology, of all things, will help us capture and share real life as it happens.

7 MULTI-RACIAL MODELS

Models with multiple ethnicities are the new faces of global advertising.

8 2014 FIFA WORLD CUP™

World Cup mania will rival any religion for largest following in 2014.

9 WITCHES (BYE BYE, VAMPIRES)

Witches are the new pop-culture queens, lighting up the silver screen and runways in 2014.

10 HANDCRAFTED VECTORS

Sketchy, hand-drawn illustrations remind us there was an artist in the process.

11 INSTAGRAMMY FOOD SHOTS

We trust food that looks like it was shot with a friend's iPhone and posted online. #yum

12 EXPERIENCES OVER THINGS

1. Mix together flour, milk & eggs and you have a skill for life. / 2. Paddle, lift & ride and you have an experience for life. / 3. Pack a sleeping bag, axe & beans and you have stories for life.

13 CREATIVE COLLABORATION

Collaboration trumps competition because two heads really are better than one.
